WEEKLY LETTER FROM THE CAPITAL

The Capital like other cities throughout the North American continent was thrilled this week by the news from the Arctic circle that the McAlpine party of prospectors and airmen had been found alive and well at Cambridge Bay. The news of their safety was flashed from the northern frontiers of Canada by radio and set the whole world agog with wonder and amazement. After two months of fruitless search by land, sea and air, and after hope had died of their ever being located alive these lost men came back out of the frozen Arctic region to rejoice the world.

The story of their sufferings and wanderings, after being forced down many miles off their course, reads like a romance from some old adventure of the past. It is an epic of amazing courage and hardship borne bravely. They are now on the way home.

Ku Klux Klan Here

Some interest has been awakened this week by the announcement that two branches of the Ku Klux Klan have been formed in Edmonton. M. M. Burr, Grand Scribe for this province, who lives at Calgary, was in attendance at one of the new branches of the mysterious brotherhood this week. The Grand Dragon of the order, whose name is a secret inviolable, is said to be visiting the Peace River district. One wonders whether Saint George and the Dragon will meet in mortal combat once again in history.

Legislation to Open

There will be no session of the Legislature before Christmas, but Premier Brownlee expects to go to Ottawa before the house opens, on the natural resources question. He will meet the federal authorities. The exact date for this conference has not been definitely set yet. Each department in Edmonton is checking up its work to see what new legislation if any will be required when the legislature meets.

Premier Kings Visit.
The Prime Minister came, was heard by a large number of admirers and critics and has gone again on his speaking tour. He was asked point blank as to the probabilities of a federal election within a short time—some time next year—but he laughed the matter off and discounted all rumors of an election. He was given an enthusiastic civic welcome, in which party affiliations were submerged. He was greeted as one of Canada's great citizens.

Unemployment in Alberta.
Summaries issued by the Provincial Government at the end of October showed that there were 1,006 unemployed in all Alberta at that time. Opening of the lumber camps is reflected in a keener market for laborers capable of brush work. Forty-one men were placed in that industry during last week.

Capital's Silver Birthday.
Twenty-five years ago Thursday, a struggling frontier town, in the y if not in fact, attained the dignity accorded cities when a charter incorporating the "City of Edmonton" was granted. The Edmonton of today, though still somewhat scattered in a live, wealthy and beautiful place. In 1904 the population of Edmonton was 7,500, it is now 75,000. One train a day was the railway service accorded the city then. There were 450 telephones in the city then, there 16,281 today. In 1908 there were 10 miles of street car track in the city with six street cars doing duty. Today there are 56 miles of track in the city and more than half a hundred are required now. There were no automobiles and no parking problems then.

Armistice Day Service.
A large Memorial Service was held in Memorial Hall on Armistice Day. It was attended by Premier Brownlee, Lieut. Governor Dr. Ebert, the clergy, and all organizations, military and civilian. Mayor A. U. G. Purdy presided as chairman. Rev. Capt. J. C. Bowen offered the invocation and at 11 o'clock a 50-minute service.

University Sends 'Shorthorns.'
Two carloads of high class live stock from the University of Alberta will be shipped over the C.N.R. to the Royal Winter Fair, Toronto, which opens November 20th. When the Toronto show ends the stock will be shipped to Chicago for the International Show in that city. The exhibit includes 10 steers and four head of Shorthorn breeding stock for display.

The civic election in Edmonton draws near and the Capital is becoming political minded. The labor candidates intend to retain their hold on the municipal government, but there are strong indications of a shake-up.

The convention of the Alberta branch of the Canadian Labor party opened on Saturday morning in the Labor Hall, and 100 delegates were present. An important discussion is expected concerning the relations of the Communists and the Labor party.

The weather still continues lovely in the Capital. Bright, brilliant days succeed each other, with sunshine making life very attractive here. California has nothing on the Alberta falls. The days are bracing and healthy and while the nights are chilly, there is enough moonlight to make them romantic. But winter is just around the corner and citizens have prepared by putting storm windows and doors in place. Soon "The north wind will blow And we shall have snow."

BOXING PROGRAM NOVEMBER 28TH

(From The Viking News)
Definite arrangements were made on Tuesday for the big boxing program to be staged by the Viking Elks in their new hall at Viking on Thursday, November 28th.

The principals in the main event are Prudholme, of Groulx, and Curly Kid Archibald, of Irma.

This should be a great card for the fans. Prudholme holds a decision over Curly Kid, but Curly has been training faithfully and hopes to step into the ring and reverse the decision.

A telegram was received from Prudholme stating that he would be here on November 17th and open a training camp, and all fans will be given a chance to see him in action against some of the boys in this community.

A preliminary that should be a thriller is a go between Nash, of Irma and Tovey, of Wainwright. These boys are real mixers and full of action.

Other preliminaries being arranged and the program for November 28th should be as good and better than the one staged here.

Popular prices prevail. The seating arrangements will be the same as at the previous bout.

leer was observed, which was ended by the sounding of the Last Post by J. Ratcliffe and C. Dawes. Delbert MacFarlan sang the solo, "In Flanders Fields."

The hall was crowded and the service one of the most impressive held on Armistice Day in the Capital. **Bridges Cost \$500,000.**

New bridges to the cost-value of \$500,000 have been built in Alberta this year as part of the government's construction program. They have comprised 35 steel and 350 timber spans. The biggest and most important structure is that across the Ghost river, near the new power development. It involves a span of 300 feet with a 200 foot span at both ends. It is of steel on concrete. Another smaller but important structure has been built across Bowford Creek, near the park boundary west of Calgary.

No Change of Status.
Hon. George Hodgley has announced there will be no change in the status of the agricultural schools in the province. The minister of agriculture has been advocating that the school at Claresholm and Raymond be merged into a central school at Lethbridge. He told the U.F.A. convention at Claresholm at its annual meeting that no change would be undertaken at present.

Dairy Pool Ready.

Within a few weeks the new co-operative milk plant under construction for northern Alberta dairy pool members will be in full operation, states C. E. Christensen, general manager.

Women's Institute Bazaar.
The Irma Women's Institute will hold their Bazaar November 30th. Doors open at 2.30 p.m. Any donations will be gladly received.

Card of Thanks.
Mr. and Mrs. Wm. Lockhart wish to thank all neighbors and friends for help and sympathy during their recent bereavement in the loss of their loving mother. Also for floral tributes.

Acquitted of Theft.
LOSSES CIVIL ACTION
Judgment for \$900. and \$400 costs has been handed down in the supreme court by Mr. Justice J. R. Boyle in the action brought by Adele Mahovsky against Hugh Boswell.

The action arose out of the theft of 10 head of cattle.

The parties to the action reside near Viking. At a sitting of the criminal court held last spring, Boswell was tried for the theft of the cattle and was acquitted.

CHURCH NOTICES AND ACTIVITIES

UNITED CHURCH NOTES
The services next Sunday will be at:
Ross—11 A.M.
Alma Mater—2 P.M.
Roseberry—3.30 P.M.
Irma—7.30 P.M.

The Anniversary Services will be held on November 24th and the Supper will be held on the 25th. Arrangements have been made to have Rev. H. Peters of Hardisty as our special preacher. While this day commemorates the building of the church in Irma, it is well to remember that services were held in the district for at least twenty-two years. Twenty-two years of sustained Christian effort in this new country is something to be thankful for. We cannot measure the good that has been done, but we can be sure that it has meant a great deal to this community. We want this anniversary to be a great occasion.

The Evangelistic services, by the time this paper is in the hands of the readers, will be over. We have had remarkable attendance throughout and the presentation of the Gospel truth has been most inspiring. Rev. T. A. Woods entered into his work here with great enthusiasm and has exercised a powerful influence for good. He will be long remembered. Not only are we grateful for the work that Mr. Woods has done, but we greatly appreciate the singing of Mr. Kerns. He has been a very important factor in the success of these services, his splendid baritone voice combined with his sympathetic interpretation of the gospel message in song has meant much to those who have listened to him.

Now that this special effort is over, there must not be any let-down in our Christian living and our church activities. These services should be but the beginning of sustained progress in Christian experience. We want the Church to be a mighty factor for righteousness in our community life, to be an uplifting influence and an inspiration for vital Christian service. There will be a prayer service next Friday, at 7.45 p.m. which will be continued throughout the winter. We want this service to be the central factor in our Church life.

ANGELICAN CHURCH SERVICES

Anglican church services will be held in United Church, Irma at 3 p.m. on Sunday, November 24th. There will be a celebration of Holy Communion at that service. Everybody welcome.

The next W. A. meeting will be held at the home of Mrs. W. Cole on Tuesday, November 25th at 2.30 p.m. Everybody welcome.

A Whist Drive will be held at St. Theresa Catholic Church, Irma on Thursday evening, November 21st. Everybody welcome.

WOMEN'S INSTITUTE BAZAAR

SATURDAY, NOVEMBER 30th
The Irma Women's Institute will hold their Bazaar November 30th. Doors open at 2.30 p.m. Any donations will be gladly received.

CARD OF THANKS

Mr. and Mrs. Wm. Lockhart wish to thank all neighbors and friends for help and sympathy during their recent bereavement in the loss of their loving mother. Also for floral tributes.

ACQUITTED OF THEFT

LOSSES CIVIL ACTION
Judgment for \$900. and \$400 costs has been handed down in the supreme court by Mr. Justice J. R. Boyle in the action brought by Adele Mahovsky against Hugh Boswell.

The action arose out of the theft of 10 head of cattle.

The parties to the action reside near Viking. At a sitting of the criminal court held last spring, Boswell was tried for the theft of the cattle and was acquitted.

Plaintiff in the civil action brought suit before Mr. Justice Boyle and was successful.

NEWS ITEMS FROM KINSELLA

Mrs. Dave Corbett spent the week end and holiday in Edmonton with her daughters the Misses Evelyn and Edith Corbett and son Jack.

Miss Irene Ross of Viking spent the holiday with her aunt Mrs. P. J. Wangness.

Miss Bessie Hart of Viking spent the holiday with her mother Mrs. Hart at the home of her sister Mrs. H. Austin.

Mr. Joe Justik and Miss Marian Watson who are attending the Camrose Normal spent the holiday at their homes here.

Miss Isabel Stronach who is teaching near Minburn spent the holiday at her home here.

Mr. and Mrs. Lundy Beschell of Killam spent Sunday with the latter's parents Mr. and Mrs. V. Justik.

On Sunday afternoon a train from the East was putting some gravel cars in the pit for storage when one went off the track wrecking several others. Both crossings were blocked but the wrecking train from Edmonton arrived during the night and cleared the tracks. Everything being practically cleared by 10 a.m. on Monday.

Quite a number from here attended the chicken supper at Jarow on Friday evening and also the concert, and reported that they had a fine supper and splendid program.

Messrs. Third and Ansell are having a refrigerator at the back of the store.

SALE AND REDEMPTION OF IMPOUNDED ANIMALS (Sec. 48)

Notice is hereby given under Section 48 of The Domestic Animals Act (Municipalities) that—

Day: Brown Mare about three years old, small spot on face, two white hind feet, was impounded in the pound kept by Robert Tod, located on the S.E. 28-48-8-4, on the 14th day of October, A.D., 1929, and that the said animal was sold on the 24th day of October, 1929, to M. Renspies of Salteaux, Alberta.

—and that said animal may be redeemed by the owner or on his behalf within a period of thirty days from the publication of this notice in The Alberta Gazette, upon payment of all fees and costs due to the municipality and the purchaser of said animal.

Arthur Curtis, Sec.-Treas. of the Municipality of Buffalo Coulee No. 453, Post Office, Salteaux, Alberta.

CHANGE IN TRAIN TIME

Commencing November 17th a new time card will be in effect on the C. N. R. main line. No. 1 fast train going west will pass through Irma at about 7.30 P.M.; The local passenger No. 77 going west will leave Irma about 3.50 P.M. instead of 4.45 P.M.; No. 2 going east will pass Irma at about 11.03 A.M., and No. 78 the local passenger from Edmonton will arrive at about 12.40 noon.

MUNICIPAL DISTRICT OF BATTLE RIVER No. 423.

Notice is hereby given that the assessment roll of the said Municipal District made for the purpose of the Alberta Assessment, Commission has been prepared and will for forty days be open to inspection at the office of the Secretary Treasurer of the Municipal District from 10 o'clock in the forenoon until four o'clock in the afternoon on every day not a public holiday except Saturday and on that day from 10 o'clock in the forenoon until two o'clock in the afternoon and that any person who desires to object to the entry of his name or that of any other person upon said roll or to the assessment of any property or to the assessed value placed upon any property, must within forty days after the date of this notice lodge his complaint in writing with the Secretary Treasurer of the Municipal District.

Dated this 29th day of October, 1929.

R. J. TATE, Sec.-Treas.

LOCAL EVENTS JARROW DISTRICT

The chicken supper and concert put on by the Ladies Aid on Friday evening, November 8th was an unequalled success in every way. The good weather and good roads were taken advantage of by people near and far and a large crowd attended. A sumptuous repast was served by the ladies of the Aid and a most excellent program followed.

The Melgrove Girl Guides put on an exercise which was thoroughly enjoyed by all and a chorus by the girls of the town was excellent, especially the numbers in their Hawaiian costumes. Mrs. Waite, Mrs. Luxton and Mr. Ash of Loughheed gave very enjoyable readings, and Aileen Parker and Margaret Heron sang a most delightful duet. The musical trio consisting of Mrs. Barton, Mr. Jenkins and Mr. Long, played in their usual delightful manner and were heartily encored. Mrs. Pryce Jones of Irma and Mr. Robert Heron were soloists whose numbers were also heartily encored and enjoyed by all. Mr. McNeil made an excellent chairman and a sale of work followed the concert. About one hundred and ten dollars was taken in.

The ladies are very grateful to all who helped make the evening such a success. Word has been received that Ward Matthews who left here for California about two months ago has been quite ill with inflammatory rheumatism. We hope Ward will soon be well again.

Joe Cauldwell and Clifford Reid of Innisfree spent the week end in town as usual.

Mr. and Mrs. Jenkins, Mr. and Mrs. Barton, motored to Edmonton for the holiday.

Mr. and Mrs. Luxton spent Thanksgiving with relatives at Innisfree.

Miss Jean Matthews spent the holiday with her uncle and aunt, Mr. and Mrs. Heron, south of town.

Miss K. McGregor spent Thanksgiving with her parents here.

Mr. and Mrs. Boyd spent the week end with Mr. Boyd's parents at Holden.

Fred Rowland spent the holiday with relatives at Deville.

Mr. R. S. Meakins left on Monday for Regina where he will attend the U. G. G. convention as delegate from this district.

There has been no school in the Junior room since Tuesday owing to the illness of Mrs. Jenkins.

On Tuesday evening the community club was most royally entertained by the losing side of the membership drive. The regular business meeting was held first and then the members sat down to a sumptuous oyster supper to which about fifty people had full justice. Mrs. Barton in a few well chosen words thanked the losers for this excellent entertainment. Mr. Bamsey replied and after a social hour everyone went home, but there were quite a few complaining next day of a pain, and no wonder.

"SALADA" TEA

'Fresh from the gardens'

Canada Among the Nations

Canadians of all classes can hardly fail to feel a thrilling pride in the rapid strides forward made by their Dominion in the realm of international affairs. Since that fateful day in 1914, when the world was plunged into war, and Canada at once, and without the slightest hesitation, took its place in the front rank of the Allied hosts, the growth of this country in world estimation and influence, has been one of the remarkable features of the international situation.

Hardly a year has passed without witnessing some new advance step taken, or some noteworthy achievement added to the record, revealing Canada's new and higher status in the councils of the nations.

Concisely, but eloquently, Sir Robert Borden outlined the Dominion's growth in international stature within the short space of the last two years in a memorandum prepared and submitted by him to the Institute of Pacific Relations now in session at Kyoto, Japan. Since 1927, when the Institute last assembled, Canada had adhered to the multilateral pact for the renunciation of war, has given adherence to the optional clause in the statutes of the Permanent Court of International Justice, has exchanged ministers with France and Japan.

Canada, too, has aligned itself wholeheartedly with Premier Ramsay MacDonald and President Hoover in their fine effort to promote mutual understanding and goodwill between all sections of the English-speaking world, thus paving the way for a larger measure of world disarmament, and making an immensely important advance toward the goal of permanent world peace.

Nor has Canada confined its efforts to the signing of treaties and the making of gestures. When the unfortunate incident of the "Tim Alone" arose—a happening which in days gone by might have precipitated almost immediate war, and certainly a feeling of hostility containing the seeds of future trouble, Canada kept cool, and through the medium of diplomatic correspondence between Ottawa and Washington, a basis of arbitration was quickly and mutually arranged to the satisfaction of both nations. Speaking of this correspondence, Sir Robert says:

"The diplomatic correspondence on the subject between Canada and the United States is admirable in tone, and the questions of fact and law presented are set out lucidly and temperately on each side."

In the Assembly and Council of the League of Nations, Canada's voice is always heard in support of all measures calculated to make for peace. This Dominion is a real leader at Geneva in all efforts to promote international understanding and goodwill, and in the devising of ways and means to remove causes of suspicion and irritation.

Coincident with the rise of Canada as a factor in international affairs, the foreign trade of the Dominion has increased by leaps and bounds until now this country can boast of the second largest world trade per head of population. Canada's ministers at Washington, Paris and Tokio, are reinforced in this work of creating international goodwill and prestige for Canada by a large and steadily increasing number of trade commissioners in all parts of the globe.

Canada's strong position can be made stronger through the united sympathy and effort of the Canadian people. Sir Robert Borden, while voicing unqualified praise of the sailor pact, declared that the peace of the world cannot be secured by treaties alone, nor can it be maintained by force. The same foundation which assures ordered liberty and justice in a modern civilized state must be created on an international scale if peace is to endure.

The education and idealism of the people, their inherited respect for law, and their determination to maintain order and justice against crime and lawlessness," Sir Robert said, "are the real foundations upon which stable government rests. In the world there must be an international public opinion upon which will be established between the nations the enthronement of public right and justice."

Canada, no less than other countries, has everything to gain through the development of such an international public opinion. Only by the maintenance of peace can Canada's great foreign trade continue to prosper and grow. The development of an international public opinion must begin within each national unit and spread through the whole body of humanity.

Canada has that international viewpoint. It is growing stronger, and every true Canadian will exert himself or herself to foster it. It is one of the greatest things in the nation and in the world today.

Safer To Stand Up

Mussolini Had Amusing Experience At Theatre In Italy

You don't have to believe this, but a gentleman returned from abroad says that an American girl studying Italy went into a moving-picture theatre and suddenly realized that she was sitting just behind none other than Il Duce Mussolini himself. His visit was incognito, and successfully so, for no one recognized him in the half light of the cinema. He was enjoying everything hugely until, in the midst of a new scene, a portrait of himself in heroic pose was thrown on the screen. The spectators of course, all arose, cheering wildly, all save Mussolini himself, who sat through the demonstration, fidgeting. His had been, obviously, a rather nice point—whether to stand up and risk being recognized honoring himself, or to remain modestly seated. After the excitement was over an old Italian lady who had the seat next him leaned over and said: "Signor, that's how we all feel, but it's safer to stand up."

NERVE TORTURES

A Condition From Which Both Men and Women Suffer

Hardly any condition of ill health causes more real suffering than a shattered nervous system. And often, unfortunately, but little sympathy is shown for the sufferer. It is a mistaken notion that the nerves can be controlled. Men and women with nerves out of gear often become irritable, and are blamed for ill temper when it is not their fault. Their poor health is the cause. The tired, over-busy wife and mother, whose household cares have worn her thin; the breadwinner whose anxieties have worried him until he is really ill, are among the nerve sufferers who become run-down. Their nerves, like all bodily organs, need rich, red blood. In all such cases the best and simplest treatment is a course of Dr. Williams' Pink Pills, which enriches the blood and builds up the nervous system and brings good health and cheerfulness. Mrs. M. Cross, Richmond, Que., tells how this medicine ended her nervous troubles. She says: "I have suffered from nervousness and dizzy spells, and the hundred other things which in such a condition make life a misery. The first thing I found to help me was Dr. Williams' Pink Pills. Under the use of this medicine I found my nerves grew steadier, the dizzy spells grew less frequent, and I became much brighter and cheerful. I took the pills for some time and found that they enrich the blood, build up the nervous system, and in the end benefit both old and young. You can get these pills through any medicine dealer or by mail at 50c a box from Dr. Williams' Medicine Co., Brockville, Ont."

Demonstrates New Serum

Young Military Doctor Discovers Substitute For Blood Transfusion

The efficacy of a new serum, which is said to take the place of a blood transfusion, was demonstrated at the Pean Hospital, Paris, where the life of a motor-cyclist was saved after he had been badly hurt in an accident. The serum is the discovery of a young military doctor attached to a branch of the Pasteur Institute, in Hanoi, Indo-China.

Before the serum was tried on human beings, experiments were conducted in Paris at the Pasteur Institute. The serum was injected into a dog from which most of the blood had been drained, and the animal immediately revived and took food. The motorcyclist was successfully treated when he had already lost two quarts of blood.

Persian Balm is alluringly fragrant. Adds a charming refinement to the most finished appearance. Creates and preserves complexions of surpassing loveliness and texture. Softens and whitens the hands. Cools and dispels all irritation caused by weather conditions. Swiftly absorbed by the tissues leaving never a vestige of stickiness. A peerless toilet requisite. Invaluable to all women who care for elegance and distinction.

The Union of South Africa, in 1921, had a white population of 1,500,000 against 5,000,000 blacks.

Not long ago a British aviator went out and flew a seaplane at a speed of 368 miles an hour. That was the fastest time ever made by any kind of vehicle capable of carrying a human being.

It must be admitted that when the Old Country people set out to make fast time they are in a hurry. It is quite erroneous to harbor the opinion that they are slow. They have a leisurely way in certain affairs, but in others they are speedy.

Another Titled Farmer
Sir Sandeman Allen, British Member of Parliament, has bought a farm in the Prince Albert district, which he returned following his trip to the Pacific coast with Lady Allen and their son.

There are about a million square miles of islands in the sea.

American Tribute To Ramsay MacDonald

New York Paper Makes Kindly Reference To His Sincerity Of Purpose

Though he modestly puts away the personal aspect of it, it has been a distinct triumph for Ramsay MacDonald, the man. His bearing has been perfect. Not one slip in act or speech did he make while he was here. Deeply impressive has been his abiding sense of the high mission on which he came, and which he hopes will lead to all-embracing benefits throughout the entire world. His eloquence has been that of elevation of mind and nobility of purpose. On divers strings he has sounded the one clear note of a passion to secure established peace on earth through every reasonable and honorable means. Such speaking as his, coming to a climax as it did in his magnificent address on Friday night, has seldom been heard in any country from the lips of a citizen of another.—New York Times.

New Grain Loading System

New and Improved System To Be Put In Operation At Montreal

A new and improved system of grain loading will shortly be in operation in the Port of Montreal. The first of two mechanical grain loaders is being erected on shed 9, one of the berths allotted to the Canadian Pacific Steamships, and the second will be set up shortly afterwards. It is expected that further improvements along this line will be part of the fall building programme.

All Night With Asthma. Everyone knows how attacks of asthma often keep their victims awake the whole night long. Morning finds him wholly unfitted for a day of business, and yet, business must still be carried through. All this night suffering and lack of rest can be avoided by the prompt use of Dr. J. D. Kellogg's Asthma Remedy, which positively does drive away the attacks.

Recipes For This Week

(By Betty Barclay)

VEGETABLE SOUFFLE

- 1 cup left-over vegetables.
- 1 tablespoon flour.
- 1 tablespoon butter.
- 1 teaspoon sugar.
- 1/2 cup milk.
- 2 eggs.
- Salt.
- Pepper.

Add the flour to the butter which has been melted in a saucepan, and blend until smooth. Add the water slowly, while stirring to keep smooth. Cook one minute, stirring constantly. Then add the milk. Pour the mixture over the eggs which have been beaten until light, and to which have been added sugar, salt and pepper. Add mixture to the vegetables which have been placed in buttered baking dish. Bake in slow oven until souffle is set—about 40 minutes.

LEMON CATSUP

- Grated rind of 4 lemons.
- Juice of 4 lemons.
- 1 tablespoon grated horseradish.
- 1 teaspoon salt.
- 2 teaspoons white mustard seed.
- 2 teaspoons celery seed.
- 4 cloves.
- Few blades mace.
- Few grains red pepper.

Mix ingredients; boil thirty-five minutes, and bottle while hot. Let stand five or six weeks to ripen. Serve with fish.

Another thing that the world needs is an alarm clock which will come right back and ring again after you shut it off in the morning.

Feet Sore? Use Minard's Liniment.

Cost Of Keeping Clean

Ten Cents Of Every Dollar Goes Toward Banishing Dirt Says Statistician

Ten cents of every dollar spent by the average American family is for the purpose of keeping clean, a survey of this little discussed phase of daily life by Ronald Millar, New York statistician, shows.

Basing his calculations upon a family of four, Millar, in The American Magazine, estimates that \$1,000 a year is the least price of cleanliness that can be quoted. Of this amount \$460.35 is the minimum yearly total for personal and household cleanliness; \$485 for the services of cleaners whether employed directly or indirectly, and \$72.80 for civic cleanliness.

In personal household cleanliness the statistician includes soap, polish, shaving equipment and materials, hot water for washing or bathing, haircuts for husband only, tooth-brushes and dentifrices, handkerchiefs, towels, linen and power or up-keep for whatever cleaning devices that may be used. The housewife is granted, under the second group, 35 cents an hour at the rate of two hours a day for 300 days in the year. Whether or not she receives any actual pay, the work is still chargeable since it is time which any woman might employ for cash profit. Likewise, says Millar, the cleaning of railway cars, automobiles and even the grooming of 19,000,000 horses that still exist in the country, ultimately become a charge upon the individual.

"Food and shelter lead in the cost of living," says Millar, "but the cost of cleanliness is higher than that of clothes, education amusements, owning an automobile and many other things that figure more prominently in the household budget."

An Oil For All Men.—The sailor, the soldier, the fisherman, the lumberman, the out-door laborer and all who are exposed to injury and the elements will find in Dr. Thomas' Electric Oil a true and faithful friend. To ease pain, relieve colds, dress wounds, subside lumbago and overcome rheumatism, it is excellent. Therefore, it should have a place in all home medicine and be amongst those taken on a journey.

The City Of Parks

The Moose Jaw Optimizer—organ of the young men's section of the Board of Trade—has awarded to the driving town in question the title of "The City Of Parks," and mentions, incidentally, that there were 40,000 visitors to the Moose Jaw Animal Park since May, not including the 5,000 present at the Indian Pageant.

Minard's Liniment relieves stiffness.

Watch The Lanterns

The Farmer's Advocate says: As the days shorten the lantern comes into use in choring, night and morning. Plenty of hooks should be provided, and wires as well, along which the lantern may slide. Carelessness with the lantern has resulted in many disastrous fires.

Needless Suffering

The next time a headache makes you stay at home—

Or some other ache or pain prevents your keeping an engagement—Remember Aspirin! For there is scarcely any sort of pain it cannot relieve, and relieve promptly.

These tablets give real relief, or millions would not continue to take them. They are quite harmless, or the medical profession would not constantly prescribe them.

Don't be a martyr to unnecessary pain. To colds that might so easily be checked; to neuritis, neuralgia; to those pains peculiar to women; or any suffering for which Aspirin is such an effective antidote.

You need not hesitate to take Aspirin. It is safe. It is always the same. It never depresses the heart, so use it as often as needed; but the cause of any pain can be treated only by a doctor.

ASPIRIN

TRADE MARK REG.

Commands Atlantic Liner

Ronald Stuart Was First Canadian To Win the Victoria Cross In British Navy

At least one Canadian holder of the coveted Victoria Cross "worked his way" to England for the Prince of Wales' dinner on Nov. 9, and none can deny that he earned his passage. This is Commander Ronald Stuart, V.C., captain of the Canadian Pacific liner, "Duchess of York," the first Canadian to win the Victoria Cross in the British Navy.

Commander Stuart brought the C.P.R. steamer "Princess Elaine" to the Pacific coast on her maiden voyage last year and was later elevated to command of the crack Atlantic liner which he now sails.

Mother—"Shall we invite the boy next door to your birthday party?" Little Lottie—"I don't think so—he's so good nobody likes him."

WHAT WILL IT DO?

Women are saying: "Pinkham's Compound keeps me fit to do my work." "I was nervous and all run down. Now I eat better and sleep better." "It helped my third year old daughter." "I took it before and after my baby was born." "I am gaining every day."

Lydia E. Pinkham's Vegetable Compound

Figures Showing Cost Of Wars Should Bring Home To Everyone The Futility Of Armed Conflict

Everyone must fight if we have another war. The fighting won't be only on the battlefields. There will be fighting on the land and on the sea and in the skies. It will be carried right into the homes of the peoples. Everyone will fight—and everyone will lose. The cost would be unthinkable, and part of the price might be our civilizations. Even the victors must lose in modern warfare.

The Napoleonic wars (1796-1815), a conflict that lasted 9,000 days, killed 2,100,000 human beings, and cost \$3,070,000,000.

The American Civil War (1861-1865) lasted 1,350 days, cost 635,000 lives, and \$7,000,000,000.

The Franco-Prussian war (1870-1871) lasted for 210 days and cost 280,000 lives and \$3,210,000,000.

The Russo-Japanese war (1904-1905), lasted 548 days, cost 160,000 lives and \$2,100,000,000.

The above figures are for wars of the recent past, but how they pale before those of the World War!

The World War (1914-1918), lasted 1,563 days, cost 8,518,000 lives and \$188,233,637,007.

Now, all the real property in the United States, from the Canadian border to the boundaries of Mexico, and from the Atlantic to the shores of the Pacific Ocean, are worth considerably less than the cost of the World War.

It should interest and impress all engineers, business men, and all other people with common sense to learn that all the steam railroads and their equipment, all the motor vehicles, all the street railways, all the telegraph systems, all the telephone systems, and all the electric light and power stations of the entire United States of America could be purchased for a sum of money considerably less than one-quarter of the cost of the World War.

We have been told that all the money raised from the peoples of the earth in taxation, eighty cents out of every dollar goes to defray the costs of the wars of the past and in the preparation of future wars. The thing is absurd—General Electric Review: 1929.

Prizes For Canadian Fruits

Exhibits From Dominion Win Awards At British Exhibition

Thirteen first prizes in apples, one first in pears and four seconds in apples were awarded to Canadian exhibitors at the Imperial Fruit Show, which was held at Bingley Hall, Birmingham, according to cables advised received at Ottawa by the Department of Agriculture. Eight of the first prizes were won by Nova Scotia apple growers, and four by British Columbians. Nova Scotians secured the three second prizes. The most successful individual Canadian exhibitor was Charles A. Bentley, of Berwick, N.S., who secured no fewer than five firsts. The Associated Growers of British Columbia, Limited, of Vernon, B.C., obtained three.

The British Columbia company were also successful in the British Empire section, securing a first and second prize.

Record For Building

Building permits issued in Canada during the first eight months of this year reached a total of \$168,606,059. Not only was this the highest for the period ever recorded by the Dominion Bureau of Statistics, but it was 16 per cent above the previous high record in 1928.

Then there was the Scotchman who, when asked what he had clenched in his fist, answered: "My wife's false teeth—she's been eating between meals."

Venice, Italy, is built on seven hills, and is called the "City of the Seven Hills."

In 1922 the first telephone conversation across the Atlantic took place.

"You eat all day, but work? Never. I don't believe you are listening to what I say."

"I thought you were talking to yourself, sir."—Lustige Kölner Zeitung, Cologne.

W. N. U. 1810

Rural Credits

Dominion Farm Loans Board Now Operating In Six Provinces

The province of Manitoba which has just recently come within the scope of the Dominion Farm Loans Board's operations, brings the total of the provinces now embraced within the scheme up to six, declared Dr. J. D. MacLean, chairman of the Board here recently. Alberta, British Columbia, Manitoba, Quebec, Nova Scotia, and New Brunswick, are the half dozen in which the board operates.

Saskatchewan and Ontario have provincial systems of rural credits, while Prince Edward Island apparently is in need of neither the one or the other.

The work of the board has been extended only recently into Quebec and Manitoba, and so far no applications for loans from these provinces have been received.

Since its inception until October 16 last, the board has approved 807 loans to the four provinces of Alberta, British Columbia, New Brunswick, and Nova Scotia; 67 have been rejected and 178 are pending. The total amount of money extended to applicants is \$100,000.

SWATHED HIPLINE

A black crepe satin with buttons down the back is new youthful Paris vogue showing the very feminine note in swathed hips with huge puff at side that dips the hem. Sleeves are slenderly fitted with darts below the elbows.

Style No. 675 is cleverly designed to give height to the figure. It is a dressy affair for afternoons that is simple enough for general wear, and it doesn't require any trimming.

It is captivating in black transparent velvet or in printed velvet in burgundy tones.

Claret red canton crepe, plum shade in silk crepe, purple crepe Elizabeth, dull black silk crepe, and hunter's green canton crepe smartly appropriate.

It's easily made and the saving is remarkable. It has a Parisian model that shows such perfect taste for all-around afternoon occasions, at the cost of the fabric and a few hours of your time.

It is designed in sizes 16, 18, 20 years, 36, 38, 40 and 42 inches bust. Pattern price 25 cents in stamps or coin (coin is preferred). Wrap coin carefully.

Four Russian aviators flying the "Land of the Soviets" from Moscow to New York, took off on October 19, from Vancouver, Wash., for Oakland, Calif., first stopping point of their final long hop across the United States. The fliers were forced to land on account of engine trouble. The photographs show: (1) "Land of Soviets," (2) Philip Bolton, second pilot, (3) Dmitry Pufayev, mechanic, (4) Semen Shastakon, chief pilot, and (5) Boris Syerling, navigator.

Received Queer Training

Men Unacquainted With Farm Work Returning To England

Some 200 men, who are returning to England, admit that though they accepted training there at the public expense, together with free board and free transportation to Canada, they never intended to do farm work. If their statement that they never saw a cow or a plow in the course of their training is correct, it would be interesting to learn what kind of training they were given and how much it cost. Taken together, the men's confession of their dislike for farm work and the complaint about the training suggest an explanation of the refusal of the Canadian farmers, with whom they were placed, to pay the promised wage of 10 pounds a month.—Truth, London, England.

To Study the Arctic

Expedition Of Graf Zeppelin Will Investigate Scientific Subjects

Dr. Walter Bliston, secretary and treasurer of the Aerial Arctic Society, announced plans for a voyage of Arctic exploration aboard the Graf Zeppelin to be taken next April by a group of 12 scientists headed by Fritz Jof Hansen. The principal objects of the projected expedition, Dr. Bliston said, would be to make the boundaries between the deep and shallow parts of the Arctic waters, to study meteorological conditions and to prepare for the establishment of scientific station in the ice fields.

The Wife: "There are two ways of looking at every question."

The Husband: "Yes, I know. Yours—and the wrong one."

Changed Methods in Handling Milk

Where proper sanitary measures are neglected, the bacteria in a drop of milk look like this.

Where sanitary precautions are taken there are few harmful bacteria in milk. The white spots are bacteria.

How much do the farmers and dairymen of Canada and United States pay in toll to bacteria in milk? In process of arriving at the answer to this question, representatives of leading milk and dairy products companies of New York recently met with officials of the State Agricultural Experiment Station, with the Department of Farms and Markets and the College of Agriculture at the Experimental Station, Geneva.

The bacterial count is being used more and more as a basis for determining how much per pound a farmer is to be paid for his milk. Getting the bacterial count under a given figure means millions of dollars annually to dairymen. Dairymen, themselves, are alive to this question, and where the milk produced is a material part of the income from the farm, complete sanitary precautions are being taken to insure a low bacterial count in the milk.

Precautions start at the beginning of milk production and continue clear through until the time the milk is in the hands of the consumer. To begin with, properly ventilated, easily cleaned stables are provided; plenty of bedding is given the cows; platforms are built the right length to accommodate the particular breed of cows that are kept; the gutter is built wide and deep; the animal

Says British Empire Not Commonwealth

Use Of This Title Wrong, Says Sir John Sandeman Allen

To call the British Empire a commonwealth of nations is quite wrong, the Toronto Board of Trade was told at the Royal York hotel by Sir John Sandeman Allen, J.P., M.P., chairman of the Royal Empire Society, member of council of the International Chamber of Commerce, and secretary of the commercial committee of the British House of Commons.

"Most people," he said, "talk about the empire as a commonwealth of nations. This is wrong. The empire is divided into three parts, of which the British commonwealth of nations is one. This is the governing body of the empire, and is made up of a group of independent nations, who are mutually interdependent. There is not one country, but 407 separate nations of different creeds and castes, who before the advent of British rule, were continually at war with each other, the weaker preyed on by the strong. Now India is two-thirds ruled by native princes responsible to the British crown, and kept together by Pax Britannica. The third part of the British empire is the colonial empire. This is the countries where the populations are not yet fit to govern themselves entirely, but are ruled by the crown, under the principles of British freedom and equality for all."

Half-stories are frequent and severe in sub-tropical regions and are rare in the coldest parts of the earth.

The White House was first painted white to obliterate marks of fire left by the British invasion in 1814.

Beef prices in Canada next spring will be high, due to the fact that there is a shortage of beef cattle in the country and comparatively few fat cattle going into winter feeding.

Trade reports for September show the exports of fresh beef to the United Kingdom as being nil, and the United States there was a falling off from \$1,107,208 to \$487,912.

No fresh beef has been shipped to the United Kingdom for several years. At present the price in Canada is so good and the demand so steady that there is only a spread of two cents a pound between the best English killed beef and Canadian beef. The cost of transportation is three cents a pound so that it does not pay to ship.

Supplies of cattle reaching Canadian markets at the present time are very moderate, say officials of the livestock branch, both in Eastern and Western Canada. There has been no liquidation, however, no forced selling, so the farmers have not done so badly.

The domestic demand at good prices indicates a measure of prosperity in the country, when people are able to buy meat at good prices despite the competition of the American consumer wanting Canadian beef.

The Psychology Of It

If you scrape the other fellow's fender, it is because he didn't give you enough room. If he scrapes your car, he is a nit-wit driver whose license should be taken from him. And just so long as this is the psychology of motor car owners, space will be set aside in the newspapers each day to record accidents.

A moose can pick up a scent more than a mile away.

He: "Have you heard that I have become an actor?"

She: "No, I only heard that you had gone on the stage."—Musketeer, Vienna.

What difference over the oldtime methods of handling milk?

It is these changed methods in the handling of the nation's milk supply that has swelled the individual consumption of milk to more than 54 gallons per year.

Predicts That Crow's Nest Pass Agreement Will Govern Grain Rates On The Churchill Route

Lights Make Hens Lay

Increases Winter Production But Does Not Affect Yearly Total

In view of the fact that fresh eggs are nearly always a higher price during the winter season than during the summer many poultrymen have been interested in the possibility of increasing winter-egg production by the use of artificial lights.

At the Dominion Experimental Station, Kapuskasing, Ontario, an experiment has been conducted for a period of five years in order to obtain some data on this subject. The experiment covered a period of six months each year, from November 1 to April 30, during which time the electric lights were turned on at four o'clock in the morning and remained on until daylight. One hundred pullets were used. These were divided equally as to weight, general development and breeding into two pens of 50 each. All conditions were made similar except that the one pen had these extra hours of light to work.

Over a five-year period the pen on lights produced on the average 3,966 eggs, at a cost of 20 cents per dozen, in six months; while the pen without lights produced 3,671 eggs at a cost of 22 cents per dozen. This gives an advantage of about 300 eggs for the pen on lights and at a reduction in cost of 2 cents per dozen.

During two of the years covered by this experiment the test was continued until October 31, making the complete year. In the two-year average over the whole year, the pen with lights laid fewer eggs than the pen without lights.

From the figures obtained to date it would appear as though lights have an effect on the number of eggs laid during the winter months, when the eggs are highest in price, but on the other hand they do not seem to materially alter the total number obtained for the whole year.

Increased Demand For Beef

Price Will Be Higher Next Spring Is Prediction

Beef prices in Canada next spring will be high, due to the fact that there is a shortage of beef cattle in the country and comparatively few fat cattle going into winter feeding.

Trade reports for September show the exports of fresh beef to the United Kingdom as being nil, and the United States there was a falling off from \$1,107,208 to \$487,912.

No fresh beef has been shipped to the United Kingdom for several years. At present the price in Canada is so good and the demand so steady that there is only a spread of two cents a pound between the best English killed beef and Canadian beef. The cost of transportation is three cents a pound so that it does not pay to ship.

Supplies of cattle reaching Canadian markets at the present time are very moderate, say officials of the livestock branch, both in Eastern and Western Canada. There has been no liquidation, however, no forced selling, so the farmers have not done so badly.

The domestic demand at good prices indicates a measure of prosperity in the country, when people are able to buy meat at good prices despite the competition of the American consumer wanting Canadian beef.

The Psychology Of It

If you scrape the other fellow's fender, it is because he didn't give you enough room. If he scrapes your car, he is a nit-wit driver whose license should be taken from him. And just so long as this is the psychology of motor car owners, space will be set aside in the newspapers each day to record accidents.

In the opinion of Hon. Charles A. Dunning, Minister of Railways, the Crow's Nest Pass agreement will govern the railroad rates on grain and flour on the Hudson Bay Railway.

"There is no doubt in my mind," he said today, "that grain will travel to Churchill on a mileage basis the same as to Fort William." Mr. Dunning explained that he could not speak in regard to general freight rates, but grain was in a different category.

"In respect of all other rates," he said, "when the road approaches operation, the Canadian National will have to file their rate tariffs with the Board of Railway Commissioners and it will be open to everyone to appeal against these rates if they are not satisfactory."

Mr. Dunning said that he had been pleased to note that the people of Saskatchewan, in this respect, had not been inactive. The traffic organization of Saskatchewan, he believed, had been accumulating information on Hudson Bay route rates for some time and, undoubtedly, would defend the interests of shippers at the proper time before the rate making body—the railway board.

Mr. Dunning, as a matter of fact, has paid much less attention to the rail rate aspect of the Hudson Bay route than to the ocean rates, which will be of equal importance to the success or failure of the route, are not controllable by Canada. Therefore he has designed the policy of his department from the outset of his administration to obtain as much evidence as possible on the vital question of the safety and efficiency of the Hudson Straits and the Bay from the viewpoint of navigation.

"To this end, every ship which has been chartered by the government to carry supplies into Churchill or to sail in these waters, for any purpose whatever, has been chartered on the basis of time. As a rule, ships are chartered for a fixed sum, and the Dominion might have saved a little money by driving a hard and fast bargain with the owners of ships which have been chartered to sail in these waters. Mr. Dunning thought this would be unwise. He has chartered on time."

The result has been that he is building up a record of the time it has taken ships to go into Churchill and out again to home ports and is in a strong position to prove that the delays in navigating the Straits and the Bay, due to fog, ice or other perils, are negligible.

In regard to the general progress of the work, Mr. Dunning said that the railway will be in operation next summer and the port will be open for commerce in the fall of 1931. The past season has been very successful in every respect. The work at Churchill is well up to schedule. In fact, the work allotted for this year was completed on October 21, and the engineers took advantage of an extremely high tide on that night to beach the dredges and scows and tug far back on the beach where there will be a minimum of risk from storms during the fall and spring.

During the summer 500,000 cubic yards of material had been removed from the harbor and it was only necessary for the dredges to stop work on one day on account of weather conditions.

While a little shore ice has been noticed at Churchill in the mornings during the last few days, Mr. Dunning stated that it would not impede navigation. With regard to the Straits, Mr. Dunning said that his reports today (Oct. 28), were to the effect that no ice is yet visible at any one of the three direction finding stations situated between the Atlantic and the Bay. Fox Channel ice, so often referred to as a peril to navigation in the autumn, has not yet appeared. There really seems not to be much difference in the temperature at Churchill and points inland. For example, the temperature on October 25 varied between 46 and 32 degrees above zero, which would compare favorably with most cities in Canada on that day.

Identify Not Important

The Governor of the State was inspecting some of its institutions. When he reached one of the insane hospitals he received a message to call his office on an important matter. Not getting as quick service as he thought he should, he barked at the operator, "I guess you don't know who I am."

"No," replied the operator, "but I know where you are."

He: "Have you heard that I have become an actor?"

She: "No, I only heard that you had gone on the stage."—Musketeer, Vienna.

The New Triumph Marconi Batteryless Console

The performance of this new Marconi model sets a new high standard in the field of Batteryless Radio.

Powered with nine of the latest "AC" Radiotrons, it operates direct from the house lighting current, furnishing the sensitive selectivity and tone brilliancy that will satisfy the most critical.

Built into its handsome two-tone matched walnut cabinet is a Superb Dynamic Speaker, assuring a smoothness and a fidelity of reproduction over the entire musical scale. Rattle or distortion is pleasingly absent from reception even when operated at room-filling volume.

Judged by any standard this new Triumph Marconi Batteryless is a Receiver the owner may well be proud of.

Complete with tubes \$268.00
Batteryless Table Model, Complete \$175.00

SOW THISTLE

Sowthistle is prevalent on fourteen out of the fifteen Dominion Illustration Stations in Manitoba. On ten of these, this weed or a combination of it with wild oats presents the chief weed problem. The same condition is usual on the majority of farms in the older settled sections of Manitoba, a condition which is rapidly spreading westward.

Illustration Station field demonstrations are planned on the basis that permanent weed control can be made most effective by a combination of timely cultural methods in connection with a well planned crop rotation. The following five year rotation has on many of these Stations provided an opportunity for the control of sowthistle and at the same time other common weeds:

First year—Summer-fallow.
Second year—Wheat seeded to sweet clover and ryegrass.
Third year—Hay and break.
Fourth year—Wheat or barley.
Fifth year—Oats.

When the wild oats are present with sowthistle the attack on the latter must be greatly modified since the oats require a dormant fallow so that they may grow, while a fallow must have frequent cultivation to starve sowthistle. If wild oats are present with the sowthistle, cultivation or shallow plowing of the field intended for fallow, is done in the early autumn. As soon as a growth of wild oats appears the next spring, cultivation and harrowing is done and the field is left in a dormant state until July when it is ploughed 5 to 6 inches deep and frequently cultivated for the sowthistle during the remainder of the season. The second year crop requires no special work since it is seeded down. In the third year the hay is removed in July and the field ploughed immediately afterwards. The sowthistle existing this year is cut with the hay before it has time to blossom and the field ploughed while the sowthistle roots are at their weakest. This, followed by the necessary surface cultivation puts the land in clean shape for grain in the fourth year. When wild oats are bad, barley is used in place of wheat. Barley seeding is deferred until late May or early June when the time wild oats are usually well started, and they can be cultivated before the barley is sown. The oat crop in the fifth year is usually the one dry field in the course of the rotation. In preparation for this crop sowthistle and wild oats are handled in similar fashion. As soon as grain in the fourth year, is cut, or removed, the field is cultivated or shallow plowed.

Early the next spring it is harrowed and packed if necessary. In late May or early June deep ploughing is done and a good seed bed made for the oats. Such treatment on one of the Manitoba Stations for the 1929 crop gave 23 1-2 bushels of oats per acre while a check plot which received only the spring plowing yielded 12 1-2 bushels per acre. The sowthistle was very greatly reduced by the first treatment. Any increase of thistle which appeared in the oat crop in this rotation is well taken care of by the summer-fallow which follows.

Methods outlined for the control of sowthistle in this five year rotation can be embodied in any well devised system of cropping.

Corn grown on several of the Illustration Stations as a summer-fallow substitute, on land infested with sowthistle, requires more work than is profitable if the thistle is to be kept down as effectively as with the bare fallow treatment.

When fighting sowthistle one salient fact should be remembered, i.e., all operations must be thorough and timely, otherwise effectual control is doubtful.

—D. A. Brown, Supervisor Illustration Stations, Dominion Experimental Farm, Brandon, Man.

Adam was the wisest man. Knowing that a man wouldn't be able to understand women he had one male to order.

"What is the difference between a girl and a car?" asked one fellow of another at the Irma dance. "There isn't any," was the reply, "a good paint job will conceal the years, but the lines tell the real story."

Something to worry about—the weight of wheat runs from one to one hundred and fifty tons.

"I never knew what happiness was until I got married," said a local married man at the last session of the poker club, "and then it was too late."

"Dad you are a lucky man," said a youngster coming home from the opening of school last month. "How's that, son?" he asked. "You won't have to buy me any books," he replied, "I've been left in the same class."

Don't get too wrapped up in yourself. Remember that you may make a pretty small package.

Canadian National through trains pass through a territory replete with scenic grandeur, of historical and educational value to the traveller. On its trains will be found companions jolly and likeable—an infectious air of friendliness and good-fellowship. There is nothing superior to the Canadian National sleeping and dining car service. Radio-receiving service is an added feature on the through trains.

Any Agent of the Canadian National will be glad to quote lowest fares and arrange all the details of the trip—or write

Hotel Longfellow Built

This hotel, the New Pines at Digby, N.S., was built by Longfellow. Not, however, that he saw it, thought about it or even dreamed or imagined it. What he did do towards it was render immortal the Land of Evangeline, the beautiful Annapolis Valley of which Digby is the gateway, and so create a tourist lure.

The New Pines is being built by the Dominion Atlantic Railway to further aid in the development of tourist traffic in the Maritimes and, with the exception of the outdoor swimming pool, the lines for which were borrowed from those at Banff and Lake Louise, it is a handsome building of early English type of architecture. The opening of the Pines will shortly precede a three day festival at Annapolis Royal in commemoration of the three-hundredth anniversary of the arrival there of Sir William Alexander's Scottish colonists under the charter of New Scotland granted by King James I.

MEMORIAL SERVICE
FOR SOLDIER DEAD

Soldier Dead of the Great War of 1914-1918 were commemorated at a specially impressive service held in the new Elks Community hall on Sunday, November 10th at three P.M. The service was under the auspices of the Viking G.W.V.A. The hall was comfortably filled when Rev. Mr. Bee, of the Anglican church, called the gathering to order and all stood with bowed heads while the two minutes silence was observed to permit meditation and prayer for the glorious dead.

Rev. Bee then gave the international prayer, after which the audience sang "O Canada", with more than usual fervor and feeling. The audience then joined in the memorial prayer as printed on the programs, after which the hymn "O God, Our Help in Ages Past," was sung. A passage of scripture from Revelations Chapter 7, verses 9-17 were read, which was followed by the poppy offering to fallen heroes. Comrades R. Dann and T. Yu'e marched from the rear of the hall to the stage and placed the wreath on a pedestal.

Rev. Mr. Bainbridge, pastor of the United Church gave the memorial address in which he outlined the events leading up to the great war, also recounted the stirring times throughout the whole world that followed the announcement of the beginning of hostilities. The pastor related several incidents that happened while he was at the front that added interest to a well thought out address. He eulogised the men and women who paid the supreme sacrifice in order that peace may reign among all the nations of the world. Efforts to end wars, the pastor stated, were given definite impetus during the past year, by the conferences between the leaders of the two greatest nations in the world, Premier Ramsay MacDonald and President Hoover.

Several veterans were seated in chairs on the platform during the services.

A song "The Holy City" was sung by Capt. J. C. Logan, accompanied at the piano by T. H. Metcalf.

After the splendid solo by Capt. Logan, the audience joined in singing the hymn "The Supreme Sacrifice," and recited in unison the Lord's Prayer. Immediately after the singing of this hymn, the sad notes of the Last Post sounded by Cde Duke Lee, rang out from a room in the rear of the hall, after which the national anthem was sung and the benediction given.

The excellent playing of the orchestra before the service began and after the services, was to be commended, as well as the solo by Capt. Logan and the accompaniment played by Mr. Metcalf.

The memorial services are an annual event in this community, and the large attendance at these services shows the deep feeling and reverence that the memory of the glorious dead holds in the hearts of all.

The dance held under the auspices of the Elks in the new community hall on Monday evening proved to be a real social success. People from all over the neighborhood as well as from neighboring towns and districts were present. The hall was appropriately decorated for the occasion. Lunch was served to everybody at the hall. The music by the Jolly Sparks made a hit with the large crowd that attended.

The first meeting of the Senior C. G. I. T. was held last Wednesday night under the leadership of Mrs. Purvis. Mary Hilliker and Dorothy Jones were nominated chairman and secretary respectively for the evening. Nominations took place and the following officers were elected:

President, Margaret Craig; Vice-President, Irene Farnham; Secretary, Rosie Coles; Treasurer, Dorothy Jones; Music Convener, Mary Hilliker; Janitor, Mabel Crouse; Editor, Mary Craig.

A quiet wedding took place at St. Mary's church on Tuesday, November 12th, at ten o'clock in the forenoon, when Albert J. Ploc, son of Mr. James Ploc, was united in marriage to Miss Rosalie Miki, recently arrived from the Old Country. Miss Bessie Pobuda attended the bride, while Vincent Ploc acted as best man. Rev. Fr. O'Neill, pastor of St. Mary's church, officiated. The bride looked becoming in a white silk dress, with veil. After the ceremony a wedding dinner was served at the home of the bridegroom's parents.

Lane McAthey was down from the University and spent Thanksgiving here with his parents Mr. and Mrs. W. McAthey who accompanied him to the city on Tuesday.

VIKING

Miss Phyllis Collier was home for Thanksgiving. She had as her guest a fellow student from the University, Miss Jean Campbell of Lethbridge.

Mr. and Mrs. Nels Forsa gave a Thanksgiving dinner in honor of Misses Anna and Emma Bruha, of Toronto on Monday. About twenty-five guests were present and enjoyed the dinner as well as the entertainment afterwards.

J. W. Stambaugh was down from Bruce on Tuesday boosting the chautauque programs which are being given four days this week at Bruce commencing on Tuesday.

A big game hunting party consisting of Percy Main, Thos. Hoskins, George Savage and Roland Brooke are up north of Edmonton scouring the woods for moose or deer.

Mr. and Mrs. J. D. Womp and daughter Miss Hilda were in Edmonton last week. While on the trip Mr. Womp and son went up to Entwistle and visited the big game hunters from here.

Chan Collins has opened a violin repair shop and picture framing studio in the rooms in the rear of the drug store block.

Mrs. Hoskins and daughter Miss Caroline, and Harold Green motored up from Calgary and spent the holidays at the home of Mr. and Mrs. G. W. Green.

Bruce Groger, of Govan, Sask., is spending a few days as a guest at the home of W. H. Currie. He is on his way home from a trip to Fort St. John in the Peace River District.

Harry Robinson was a guest at the W. McAthey home over the week end. Mrs. Chan Collins is a visitor in Edmonton.

Mr. and Mrs. Hugh Little have returned home from their trip to Prince Albert and other points.

Little Keith Hoskins, son of Mr. and Mrs. Thos. Hoskins, is reported very ill as the result of a fall.

"Buzz" Jones who is attending technical school at Calgary was home for the holidays.

Mr. and Mrs. C. Skinner and little daughter Mary Jane spent the holidays with Mr. and Mrs. J. L. Dodds.

Messrs. Henry and Chester Gravel and George Hoskins enjoyed a big game hunt north of Edmonton last week.

SOME HONEY RECIPES.

Honey and Nut Bran Muffins—Place in a mixing bowl: One-half cup flour, 1 tspn baking soda, 1 tspn salt, 2 cups bran, 1-2 cups flour, 2 tablespoons shortening, 3-4 cup finely chopped nuts, 1-2 cups milk, 1 egg. Beat thoroughly and mix well and bake in well greased muffin pans in a hot oven for 25 minutes. Serve with orange or pineapple marmalade.

Honey Cakes—One cup honey, 1-2 cup brown sugar, 1-2 cup shortening. Cream well and add yolks of three eggs, 4 cups sifted flour, 1 tspn cinnamon, 1-2 tspn nutmeg, 1-2 tspn salt, 1-2 tspn baking soda, dissolved in one cup sour milk. Beat thoroughly and fold in the stiffly beaten white of the 3 eggs. Pour into well greased and floured baking pans, about 1 inch deep. Bake in moderate oven and cool. Cover with honey icing.

Honey Icing—Beat 1 cup honey until it forms a soft ball when tried in cold water. Then pour in a fine stream upon the stiffly beaten white of 1 egg. Beat until mixture thickens and then spread.

Honey Raisin Tapioca—Wash 1 cup tapioca well and place in a saucepan. Add 1 cup honey, 4 cups water and bring to a boil and cook slowly until clear and the tapioca is soft. Then add half package seeded raisins, yolk of 1 egg. Stir to thoroughly blend, then cook 15 minutes. Serve with fruit whip made of 1-2 glass jelly and the white of 1 egg. Beat until mixture holds its shape.

Honey Apple Pudding—Two cups stewed apples, 1 cup honey, 1-2 cup brown sugar, 4 tablespoons shortening, 2 cups fine bread crumbs, 1-2 cups flour, 2 level tablespoons baking powder, 2 tspns cinnamon, 1-2 tspn cloves. Beat to mix thoroughly and put into baking dish in a slow oven and bake for 35 minutes. Serve with a thin apple sauce sweetened with honey.

Malvern Cream—Place in a saucepan 3-4 cup honey, 2 cups milk, 6 level tablespoons cornstarch. Dissolve the starch in cold milk and honey, and then place on stove and bring to boil. Cook for 15 minutes. Now, add 1 tspn vanilla, 1-4 tspn nutmeg. Beat thoroughly. Rinse custard cups in cold water. Pour in the pudding and set aside to mold. When ready to serve, unmold and serve with crushed fruit.

The only difference between marriages in China and America, says an observer, is that in China they don't see each other before marriage, while in America they seldom see each other afterwards.

Here and There

(118)

A ship of heroes skippered by one of themselves was the unique feature of the sailing of the Duchess of York on a recent trip from Montreal. Six holders of the Victoria Cross, Britain's most envied and most meritorious of war awards, were on the vessel, which was under the command of Captain Stuart, himself a V.C. They were on their way from Canada to London to take part in the dinner by the Prince of Wales to Victoria Cross men from all parts of the Empire, slated to be held November 9. Other V.C.'s travelled on Canadian Pacific lines—Minnedosa and Empress of Scotland.

The stage is being rapidly set for one of the outstanding developments in Canada is a decade when the English Folk Dancers and exponents of English folk dancing will hold a festival at the Royal York Hotel, Toronto, November 12-14. British opera by a British composer of world-wide fame will be produced for the first time on this continent when "Hugh the Drover," by Dr. R. Vaughan Williams, is put on during the festival, and Canada and Canadians will be introduced to a whole new world of art and beauty.

"We are all primarily conscious of the fact that this country, measured by any of the yardsticks by which the prosperity of a nation can be gauged, is a very prosperous country, notwithstanding disturbed stock markets and a rather unusual grain situation, both of which are, we hope, temporary," said E. W. Beatty, chairman and president of the Canadian Pacific Railway, at a dinner given recently in his honor by the St. Catharines Chamber of Commerce.

Robert Hume and George Thornton, veterans of many competitions, who teamed up from Minor, Saskatchewan, in the Canadian Pacific Swine Club competition for boys and girls of the province, have carried off the silver trophy and will join the teams from the western provinces in the Royal Winter Fair at Toronto as guests of the railway.

Bituminous sand deposits of the McMurray district and along the Athabasca River will eventually provide the huge quantities of material required for waterproofing and surfacing the gravel roads of the western provinces, is the opinion of Major C. C. McManney, director of development for the Canadian Pacific Railway, Montreal.

Colwood Golf Course, where the second annual Empress Hotel mid-winter golf tournament will be staged in February next, is one of the finest links on the continent, declared Walter Hagen, British open golf champion, who recently played an exhibition game there. "It is a terrific course that calls for the player to take in all the park-like surroundings are ideal," he added.

George Johnson, son of Henry Johnson, locomotive engineer of 32 years' standing with the Canadian Pacific Railway, has been awarded a scholarship for five years at L'Ecôle Polytechnique of Montreal, following the recent examinations taken at that school. He is a resident of Three Rivers, Quebec. These scholarships have been given since 1906, and since that year 45 opportunities for free tuition have been offered by the railway.

With a population that ranks 28th among the countries of the world, Canada is fifth in total exports and third in total turnover of trade.

Charles Olsen and Raffaele Maullauri, rival round-the-world racers, are trying to make a trip circling the globe in less than 30 days using only "regular means of transportation." Olsen left Victoria on Canadian Pacific greyhound Empress of Asia June 13, and Maullauri arrived at Vancouver on the Empress of France June 22. Airplanes come within the terms of the contract since both men have already used them. The race at time of writing is very close.

A problem that has defeated the learned for centuries—the squaring of the circle—has apparently been solved by L. W. Hartman, Canadian Pacific Railway timekeeper at London, Ont. Hartman claims he devised a geometric method by which to reproduce the exact area of a circle in the shape of a square. University professors are now examining his solution. He was born in Rumania and never saw a college, but speaks a black bear. He topped his drive and the bear beat a hasty retreat. Wild animals see very tame in this district this year.

Atleford Goulet, head barber of the Banff Springs Hotel, had what he regards as a close shave the other day when he was off duty on the golf links and a black bear. He topped his drive and the bear beat a hasty retreat. Wild animals see very tame in this district this year.

Of the 2,750,000 acres taken up by settlers in Canada in 1928 eighty per cent. was in such northerly districts as Prince Rupert, Saskatchewan, and the Peace River district, Alberta. The migration northward was most pronounced in the Peace River region, where 4,000 homesteads were taken up last year. In this district, there are still available 40,000,000 acres of fertile land, capable of adding millions of dollars to the annual value of the Dominion's crops.

WORLD HAPPENINGS BRIEFLY TOLD

Marie, of Roumania, most unconventional and perhaps loveliest and loneliest of Europe's queens, celebrated her 51st birthday on October 29.

It is announced that E. W. Beatty, K.C., president of the Canadian Pacific Railway, has accepted appointment to the Canadian Olympic committee.

During September, the first month of the apple-shipping season, 89,476 barrels left Halifax for the overseas markets. This was more than double the exports of September, 1928.

Kaye Don, noted racing car driver, announces that an automobile in which he will seek a world's speed record, at Daytona Beach, Florida, has been nearly completed.

During his speech to the Canadian Club, while in Quebec, Premier Ramsay MacDonald confided to his audience that he proposed to make a trip to Hudson Bay, no matter who attempted to deter him.

Six men, jumping simultaneously from a 19-passenger airplane, demonstrated the possibility of safe descent from a disabled plane. The demonstration was made at Roosevelt Field, New York.

Lowest Infant Death Rate

Report Shows New Zealand Has Fewest On Record.

"New Zealand's the best place in the world to be born," babies born there have more chances of living than those of any other part of the globe.

That is Sir Curriek Robertson's way of expressing the fact New Zealand's death rate among infants is the lowest on record for any country. "However, grown people don't fare much better in New Zealand than in other first rate countries," Sir Curriek added. "In the man, health conditions are good, but we have some diseases that are peculiar to certain parts of the country, and these are quite a problem."

"Gottie is perhaps one of our worst diseases. It is caused from a lack of iodine in the soil, and there are a good many stretches in New Zealand thus affected. The younger generation is being protected to a certain extent by being fed iodized candy at school and many of the adults use iodized salt to combat the disease. Cancer, too, is just as fatal in New Zealand as elsewhere."

Find Body Of Prospector

Mounted Police Locate Body In Barren Lands Of Far North

The body of Joe Rutherford, old time prospector, who lost his life one year ago when a blizzard swept the barren lands of the far north, was found by Royal Canadian Mounted Police, it became known recently.

Tom R. Cowan, of Toronto, Rutherford's partner, who suffered so greatly in the same blizzard that both legs had to be amputated, was notified that natives and Mounted Police had located the body where he had directed Staff-Sergeant Joyce, at Chesterfield Inlet, to hunt for it. The body was buried where it was found.

Some men are like silver-plated knives; they look bright but are very dull.

The Balkan Peninsula contains more native snakes than any other country of Europe of the same area.

In the rural districts of Sweden every parish forms a self-governing community.

Asthma

Caught Him Off Guard

Plaintiff Lost Damage Case Through Cleverness Of Lawyer For Defence

A legal friend of mine told me the other day a good story illustrating the value of cross-examination in the hands of an expert at the game. At the time when the present Lord Birkenhead was plain Mr. F. E. Smith, he was retained by a tramway company in a running-down case. The plaintiff, a man of the laboring class, had had his arm injured, and he claimed that the injury was permanent and prevented him from working. If his case were correct, it was a case for heavy damages. Mr. Smith, however, was convinced that the man was exaggerating. The difficulty was to prove it. After several more or less irrelevant questions had been put and answered, Mr. Smith said to the plaintiff quite casually: "Would you mind showing the jury how high you can lift your arm since the accident?" The man, apparently with some difficulty, raised it to his shoulder. "Now," said Mr. Smith in the same casual tone of voice, "show us how high you could lift it before the accident?" Up shot the plaintiff's arm, well above his head! The future Lord Birkenhead's insight into the man's mentality had won the tramway company their case.

Shipment Of Pure Bred Rams

Four Carloads Shipped From Ontario To Western Canada Points

What is hoped to be the first of a series of shipments of purebred rams from Ontario to the western ranches has just reached the prairies. The four carloads of 275 good purebred rams included Lincolns, Cotswolds, Leicesters, Hampshire, Southdown and Cheviots, all selected by officials of the Canadian Co-Operative Wool Growers' Association. The wool committee of the National Research Council, have been active in promoting sheep and wool interests in Canada. In the past large consignments of these sheep have been sent to the Western States for breeding with the native stock.

Crude Petroleum Production

Alberta Produces About 36 Per Cent Of Total For Dominion

Figures published by the Dominion Bureau of Statistics show that during the first six months of the present year 470,238 barrels of crude petroleum, valued at \$1,642,925, were produced in Canada. This is an increase of 168,676 barrels, or \$682,267 over the first half of 1928. The Province of Alberta contributed about 86 per cent of the total for the Dominion, having produced 405,970 barrels.

Smothering Spells Couldn't Walk Far Gassed For Breath

Mrs. T. W. Roth, Kelowna, B.C., writes: "For over a year I was troubled with smothering spells, and it was impossible for me to walk, even a short distance, on account of having to gasp for breath."

"I can now recommend them to everyone."

Price, 50c. a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Pleased With Trial Shipments

Good Market Created In Dutch East Indies For B.C. Apples

From trial shipments of apples made in 1928, it has been definitely ascertained that there exists a market for British Columbia apples in Malaya and Dutch East Indies. During the three years a steady increase in sales has been noted, since entering Java—nearly 50 per cent, since 1926, and the prospects are that 1929 will see a still further increase. Australia, the nearest, is naturally the chief source of supply, followed by the United States Pacific coast.

B.C. Exporting Lead and Zinc

A large movement of 1,500 tons of lead and zinc concentrates from Field, B.C., will begin shortly to flow through the Port of Vancouver, the line to Japan and the lead to the United States.

Newspapers were the only material used for the whole of a house, with the exception of the frame work, the windows and the floors, built in Massachusetts by a married couple.

Dr. Guild's ASTHMA COMPOUND

Canada's Sound Position

Prosperity Due In Large Measure To Agricultural Development

"We are all primarily conscious of the fact that this country, measured by any of the yardsticks by which the prosperity of a nation can be gauged, is a very prosperous country, notwithstanding disturbing stock markets and a rather unusual grain situation, both of which are, we hope, temporary," stated E. W. Beatty, chairman and president of the Canadian Pacific Railway, at a dinner given in his honor by the St. Catherine's Chamber of Commerce.

"There is, perhaps," continued Mr. Beatty, "no one reason to which we can attribute all the improvement in Canadian conditions in the last few years, but there is one which stands out above and beyond all others, and that is the impetus given by successive crops, large in volume or in money value. We hope the time will come when our prosperity will be said to be equally balanced as between agriculture and the development of natural resources and industry, but for the moment we are pre-eminently still an agricultural country and that when providence ordains that our crops shall be large we are almost inevitably prosperous."

Lighted Arrows Show Direction Of Liners

Visible Signals May Largely Diminish Chances Of Disasters

"Big liners in the near future may warn each other as regards the direction in which they are steering by means of large lighted arrows displayed on the bridge, following experiments carried out by the Royal Dutch line."

There have been many collisions owing to the international signals by steam whistle being misunderstood by vessels approaching each other on the high seas.

The new optical system installed on the liner "Batavier V" consists of three arrows copiously placed on the bridge. One is horizontal, with the point to port another is horizontal, with the point to starboard, and the third is vertical, with the point upwards. When lighted, the arrows signify respectively: "I go to port," "I go to starboard" and "I continue my direction."

Both Dutch and British authorities are closely watching the experiment well, in view to the general adoption of the plan.

Beer Brewing On Increase

More Beer Brewed In Canada Last Year Than Previous Year

More beer is being brewed in Canada. In 1928, gross production of breweries reached a value of \$60,810,398, an increase of \$1,116,167 over 1927. Net production value was \$10,172,912, as compared with \$34,056,725 in the preceding year. At the same time the number of establishments increased to 78, five more than a year ago, and capital invested moved up to \$67,148,698 from \$62,358,117.

By provinces, plants were divided as follows: Ontario, 36; British Columbia, 10; Quebec, 8; Manitoba, 8; Alberta, 5; Saskatchewan, 7; New Brunswick, 2; and Nova Scotia, 2.

Materials used in the industry cost \$20,737,486. Canadian malt accounted for \$7,409,992; foreign malt, \$1,961,820; bottles, \$5,926,056; cartons, \$1,515,371; and hops \$1,134,550. Exports in 1928 had a value of \$5,148,065, a slight reduction from the figure of \$5,481,707, in the preceding year. Imports advanced to \$248,061 in 1928, from \$223,025 in 1927.

Noted For Honesty

The honesty of the British public is well known in the British Museum, according to the superintendent of the Reading Room, Mr. Sladen, who has just retired. He states that it is a very rare occurrence to lose a book.

Pioneering in the Peace River Country

Offers Less Hardships Than Suffered By First Prairie Settlers

The Peace River country, as anyone who has visited it knows, is hardly to be regarded as a pioneering country at all. The first thing that strikes the visitor, and the impression that strengthens wherever he travels in the whole Peace River country, is that this is not a new but a finished agricultural section. He is impressed immediately by the substantial farm homes and buildings, by the well-built rural schools, hospitals and churches, by the fact that the telephone wires have been carried everywhere, and that the ordinary amenities of rural life have been provided in a remarkably short time. The Peace River country has gone quite as far in these directions as have most of the older settled sections of the West. The roads are good, substantial bridges have been built, everything in fact has been done in a very few years that could be done for an agricultural community ordinarily in 50 years.

Pioneering in the "Peace" River country does not begin to compare in hardship or difficulties with the pioneering that was done a century ago in Ontario or Quebec, or the Maritime Provinces. It is attended with much less hardship than was suffered by the first settlers on the Prairies.—Winnipeg Tribune.

This May Be 1933

No One Is Really Sure What Year We Are Living In

It is generally assumed that we are living in the year 1929, but the year may really be 1933, or even later.

This fact is indicated by a record of an eclipse of the moon. Bible history says that Christ was born during the reign of Herod the Great. But Herod died in the spring of 4 B.C., the exact date being fixed by a lunar eclipse which took place the night before his death.

Obviously, therefore, Jesus might have been born not later than 4 B.C., and possibly earlier.

The church has no definite knowledge of the date of Christ's birth. It fixed the year, month and day of the month of January.

Astronomers are able to calculate the dates of past eclipses as accurately as those of the future, and so have determined the very day and hour of the eclipse that ushered Herod the Great out of this life.

Nature's Speed Artist

Insect Size Of Bee Travels 815 Miles Per Hour

The fastest known bird is the spine-tailed swift, which reaches the speed of 220 miles an hour over the mountains of Asia; the tarpon, of Florida, the fastest fish, can cover 80 miles in an hour; and the Indian cheetah, the speediest animal on legs, is credited with 60 miles per hour. Man has beaten all these records; but he is still second to an insect, a fly no bigger than a bee which has been recorded to do 815 miles per hour.

Cargo Of No. 1 Hard Wheat

What is believed to be the first full and exclusive cargo of No. 1 hard wheat ever taken out of the twin ports of Port Arthur and Fort William was loaded from Saskatchewan pool terminal No. 7 into a tow barge on Saturday, October 12th. It consisted of 200,000 bushels consigned to Erie, Pa.

Use Gopher Pels

Gopher fur ranching may be the next development in Alberta. The Lethbridge Herald reports that an eastern firm is endeavoring to secure a large number of gopher pels for experimental purposes in the fur trade, and a communication to that effect has been received by the Board of Trade.

A Long Lived Horse

A horse 43 years old was recently exhibited in Germany. It is said that this horse has done all the work on a 16-acre farm and made a daily trip of 15 miles with a light wagon since three years of age.

Her Idea Of The Navy

Old lady (meeting sailor on country road): "Sir, do ye know my son, Jack, in the navy?"

Sailor: "Which ship is he serving in?"

Old lady: "What! Be there two?"

Canadian Wheat For India

The first full cargo of Canadian wheat ever carried direct to India left the Port of Montreal on Tuesday, October 8th, being 252,698 bushels bound for Calcutta.

A single-cylinder automobile made in Germany has a motor at the back.

When BABIES are upset

Baby ills and ailments seem twice as serious at night. A sudden cry may mean colic. Or a sudden attack of diarrhea—a condition it is always important to check quickly. How would you meet this emergency—tonight? Have you a bottle of Castor Oil ready? There is nothing that can take the place of this harmless but effective remedy for children; nothing that acts quite the same, or has quite the same comforting effect on them.

For the protection of your wee one—for your own peace of mind—keep this old, reliable preparation

tion always on hand. But don't keep it just for emergencies; let it be an everyday aid. Its gentle influence will ease and soothe the infant who cannot sleep. Its mild regulation will help an older child whose tongue is coated because of sluggish bowels. All druggists have Castoria; the signature bears Chas. H. Fletcher's name on the wrapper.

New Scheme To Aid Settlers

"British Family Reunion Association" Has Many Prominent Members

With the object of giving a powerful stimulus to the immigration to Canada of British colonists who can be satisfactorily settled, an entirely new organization has been created by the Department of Colonization and Development, Canadian Pacific Railway.

The name of the "new body" is "The British Family Reunion Association." Its activities will extend throughout the Dominion, and it is understood that the forces of the Canadian Pacific, the Hudson's Bay Company, many other organizations and influential Canadians will be joined in this effort to supply new emigration.

The heads of British families in Canada, while earning enough to properly support their families here, are unable, within a brief period to have sufficient money to bring their families to Canada, due to the fact that they have had to support themselves here and their families in Great Britain at the same time, and be assisted. Then there are families who have become comfortably established in Canada and who desire to help their friends in Great Britain to avail themselves of the opportunities which Canada has to offer, not only for the sake of the latter, but also for their children. The new association is designed to assist in the fulfillment of the wishes of the one and the ambitions of the other.

Stratford Players Coming

Famous Festival Company Is Again Appearing In Western Canada

Regina.—For an engagement of three nights, beginning on Monday, Nov. 11th, the famous Stratford-Upon-Avon Festival Company, from the Memorial Theatre at Shakespeare's birth-place, will appear at the Grand Theatre, Regina, presenting in the order named, "Much Ado About Nothing," "Romeo and Juliet," "Julius Caesar," and "Twelfth Night."

The splendid artistic qualities of this organization are well known to playgoers through the appearance of the company here last season, when an entirely different repertory was presented. The plays on the present list are those that were revived at the Memorial Theatre last summer. The company is almost the same as last season, with only such changes in personnel as have been necessitated by the altered repertory. Among the players are: George Hayes, Wilfrid Walter, Roy Byford, Eric Maxon, Gordon Bailey, William Calvert, Oliver Crombie, Kenneth Wickstead, Ernest Hare, R. Eric Lee, Jack Bligh, Geoffrey Wilkinson, C. Rivers Gadsby, Noel Iliff, Joyce Bland, Fabia Drake, Mary Holder, Olive Walter, Miriam Adams, Dorothy Francis and Maud Gerth. Monday evening, "Much Ado About Nothing"; Tuesday evening, "Romeo and Juliet"; Wednesday matinee, "Julius Caesar"; Wednesday evening, "Twelfth Night."

New Bridge For Vancouver

Increasing traffic, both freight and passenger, in the vicinity of Vancouver, has decided the British Columbia government to construct a new bridge across the north arm of the Fraser River from Vancouver, to be ready by the spring of 1930. It will be 130 feet in length.

Both the Mediterranean and the Gulf Stream which flows like an individual sea in the Atlantic, are very salty and of a deep and beautiful blue in color.

One Form Of Plundering

Usury Is Its Worst Form Is Interest On Inflated Capital

The Toronto Telegram gives the story of a certain lawyer in the United States who ten years ago acted as counsel in a law-suit. He turned his fee of \$10,000 into stocks in a gas company or something of that nature, and added \$7,500 more to gain control. "Then by manipulation and splitting of shares and by getting control of shares in allied concerns, he increased his capital to no less than \$55,000,000; on which he draws interest. The figures may not be trustworthy but they illustrate a plan of financing that is all too common these days. And of course everything was within the law and therefore the manipulation was not looked upon as a crime. Were it a private transaction it would be called plain theft, for the consumers of gas were robbed—every one of them. Yet, because of lack of state supervision this form of plundering went unchecked and the man making the profit was called a financier. The worst of it was that many men envy him, and just wish they could have had an opportunity to do the same thing."

There is such a thing as legitimate interest on money borrowed or loaned, but in all ages and in all lands usury has been condemned—yet practised. Usury in its worst form is interest on inflated capital. Think of this: that the people in one state pay over seven cents for electricity when a neighboring state pays only two. There is need that governments examine into rates of profit in all money-making concerns with a view to protecting those who are borrowers and consumers.

This, of course, is only one side of the picture. The other may be presented again.—Western Home Monthly.

Just Right For Upset Stomach

For after-eating distress, gas, sourness and bloating, the quick and positive neutralizing action of Bismarck Magnesia has proved to be just right! Relief, certain and gratifying, almost instantly follows the very first dose—and a few cents worth obtainable from any good druggist, lasts for a long time.

An Early Tractor

Thirty years ago, on September 6, 1899, a steam tractor was demonstrated near Morris, Man. This outfit, travelling at about 1½ miles per hour, pulled ten ploughs, cutting a twelve foot swath to a depth of four inches. A roller was attached behind the ploughs, and it was claimed that a perfect seed-bed was created from raw prairie without back-setting.

Count Ferdinand von Zeppelin, noted inventor of dirigibles, was an officer in the balloon corps of the United States Army during the Civil War.

The Singing Fool

By HUBERT DAIL
Copyright, 1928, Warner Bros. Pictures, Inc.

SYNOPSIS

Al Stone, singing waiter at Blackie Joe's New York night club, was fame as a composer of popular songs. He marries Molly Winton, a ballad singer, and makes her famous, too. When their baby, Junior, is about two years old, Molly elopes with John Perry, Al's best friend, taking the child. A week later Al learns she is at a New York hotel, ready to sail for France that afternoon. He calls her on the phone, and begs for the chance to say goodbye to Junior. Molly consents, so Junior is taken to the park entrance. It is a tragic farewell, for Al adores his boy. Junior says, "Do you feel bad, daddy?"

CHAPTER XX.

"I'm all right, Junior," said Al. "No, I don't feel bad. I'm just awfully happy to see you. I'll tell you something—you're going far away to another place on a great big boat. Take care of mother and don't let anything happen to her. Be good to her. And remember—you'll see daddy again; we must both wait for that time."

In the distance the nurse-maid was consulting the chauffeur as to the time. He looked at his watch and decided they should be getting back to the hotel. Al looked up to see the severe-faced nurse standing before him.

"I'm sorry," she said firmly, "but it's time for the young gentleman to return to his mother."

Junior turned on her quickly. "But I don't want to go."

The nurse tried to smile, but Junior continued with baby stances. "If you take me away so soon I won't like it."

Al rose, gathering Junior in his arms. "Sh-h—Junior. It isn't nurse's fault that you have to go. You must be a good boy, every way, every day." Then Al turned to the nurse. "I'll bring him over to the car. Will you please go on ahead?"

The nurse preceded them, while Al made that one hundred-foot walk to the car last as long as possible. Would this really be the last time he ever saw Junior? Perhaps not, but it was quite possible that Junior would be a strapping youngster the next time they came together. If so his adorable baby sayings and his sense of baby gaiety would be gone. His sweet, confiding ways would be replaced by a boyish self-sufficiency. He might even forget his father entirely.

These thoughts travelled like burning darts through Al's mind, was it humanly possible for him to give up this little bundle of humanity? Could he live afterward?

And then came the thought—take Junior by force, jump into taxi and drive off with him. For a moment this idea persisted with startling intensity. It would be so easy, and he would be justified in doing it!

But, no, Al just couldn't do it—he wasn't made that way. He was kind, generous, chivalrous. He loved Molly in spite of what she had done to him, and he knew she

adored Junior. No matter how Molly had hurt him, Al's nature would not let him pay her back in kind. Let Junior go with her and perhaps she would relent and return with the child within a few months. He knew she would take good care of his son.

Al kept his facial muscles firm and controlled until the instant of saying goodbye and putting Junior into the car. Then he had to turn his face away again as he pressed Junior to him. He said haltingly: "Don't forget, Junior, your mother loves you—you're going to be awfully good with her. Don't worry—about daddy."

Even the strange nurse was touched by this father's tragic fate. Then Al, afraid of breaking openly, quickly passed Junior to her in the car. The motor started, the door closed, the Rolls-Royce started to move. Al saw Junior's face, dim in the limousine's interior, gazing at him in wide-eyed, troubled wonder.

Al was smiling. It was a desperate effort, but Junior must remember him that way. As the car gained momentum the baby face appeared at the rear window; Junior was waving a frantic farewell. Al started to walk after the car—faster, faster. Now he broke into a run. His heart was breaking, but still he smiled and answered Junior's wave. He stumbled and almost fell, then caught himself up and ran the faster. But the little face at the window became blurred by the intervening distance and suddenly the car itself disappeared down the crowded Avenue.

When Al definitely lost sight of the car he stopped in his tracks. People on all sides were staring at him, conscious that he was passing through a terrible ordeal of some kind. As long as Junior was in sight he had kept up a brave front; now his figure sagged, and he stumbled blindly toward the nearest bench.

He sat with his arm flung across the top of the bench and his head in his hands. He felt that he could not bear to face the life that moved around him, so steadily and relentlessly, a law unto itself and ignoring his despair. He heard the steady hum of the motor cars up and down the Avenue, carrying women home from shopping tours, bridge parties and late dates, carrying men home from offices. Faintly he heard the footsteps of the pedestrians who passed only a few feet away.

Many curious glances were directed his way. If he had been a down-at-the-heels derelict of the great city he could have sat for hours in that position without attracting any notice at all, but it was unusual to see a fashionably dressed young man with a silver-topped walking-stick across his lap sitting on a bench just outside the park's stone wall in a posture suggesting despair. Two girls, passing close by, giggled, believing Al drunk. But when he raised his eyes and stared at them vaguely they rolled into silence and hurried away.

Finally he stood up and turned back toward the bench where he had sat with Junior. Reaching it, he stepped close and touched it. He must always remember this bench, the scene of his good-bye to Junior.

He took note of the fact that it stood beside a small, bare oak tree with a curiously gnarled trunk.

The winter day was darkening already; nurses from the fashionable houses along the Avenue were bringing home their baby charges who had been playing all afternoon in the park. There was a procession of them—babies in perambulators, little tots of two, three and four, carried in their nurses' arms or trotting along beside the women. Many were dressed similarly to Junior, some looked very like him. And Al stood, slightly away from the sidewalk, peering eagerly into the little faces, listening to the chatter and childish laughter. These youngsters—they were going home to happy nurseries, to fathers and mothers who loved them and were united.

How uncanny it was, thought Al, that this procession of babies passed him just at this time, when he had lost Junior. He stood like a statue until long after the last youngster had disappeared and the last remonstrating tone of the chattering French nurses had died away. Then he turned south toward the city's skyscrapers, already ablaze with light in the distance. Skyscraper apartments—home—reaching into the cold blue twilight evening sky! Everything he saw brought comparisons emphasizing the pain of his loss.

He walked slowly, asking himself—Where was he going? Back to the apartment where Celeste, the maid, waited with plying eyes, back to Junior's nursery? No, he couldn't do that. He must tell Celeste tomorrow that he was giving up the apartment. He would go to a hotel to live.

But what were his plans? He must have plans, something to engage his interest, or he would go crazy with the pain of his loss. That was Al's big problem at the moment, and he knew it. Without plans he would be continually whirling in an emotional chaos.

He had plenty of money—that didn't worry him. And he knew that Molly had salted away everything she had earned as a revue singer. She was amply able to provide for Junior. Besides, John Perry had made himself rich as a bootleg racketeer. No, the money angle could be set aside.

(To Be Continued.)

HOW TO RELIEVE CHILDREN'S COLDS

Avoid Serious Results By Using Baby's Own Tablets

When a child shows the first symptoms of a cold, such as sneezing, redness, clogged or running nose, prompt measures for relief may avert serious results. Mothers should always have on hand some simple safe and effective remedy for immediate use.

Baby's Own Tablets act quickly, contain no opiates or narcotics, are tasteless and harmless. Concerning them Mrs. Jos. Cadieux, Holyoke, Mass., writes: "I have used Baby's Own Tablets for my children and them a very satisfactory medicine. When my little boy had a cold I gave him the Tablets at night and he was well the next day. I gave them to the children for constipation and they are always benefited. I think Baby's Own Tablets are much easier to give a child than liquid medicine. I strongly recommend all mothers who have young children to keep a box of the Tablets in the house."

Baby's Own Tablets are sold by all medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Trade Within Empire

Canada Willing and Anxious To Extend Trade With Great Britain

Cables from Liverpool report the Hon. L. C. M. S. Amery, former Secretary of State for Dominion Affairs, as saying that the whole atmosphere in Canada was favorable towards doing business with Great Britain and the rest of the Empire—more so than at any time in the past. "She is in extremely good shape, indeed," he said, "with a steady all-round development."

A Clever Goose

A bright light of the goose world, in England, is Jimmy, a goose owned by a South Elmsall miner. Leaping through a hoop, waving his feet, he dances and jumping over his owner's arm are some of the tricks he boasts of. He partakes of his meals sitting in a high chair at the table and his manners are said to be perfect. He also stands at attention and salutes whenever the national anthem is played.

The game of billiards is very popular with teachers, professors and other professional men in Japan.

The early native of Hawaii had beautiful dishes of wood, carved and polished.

Use Minard's Liniment in the Stables.

For COUGHS, COLDS, BRONCHITIS & INFLUENZA

25c. box contains 35 silver-jacketed Pers.

A Law-Abiding Nation

English Obey Law and Support Authorities in Enforcing Same

No nation, not even the German, is more law-abiding than the English. Not only does the individual obey the law, but he supports the authorities in enforcing obedience on his neighbor.

"Not only is the criminal class in England small, and, to judge by the latest criminal statistics, diminishing, but the criminal himself shares with his more respectable neighbors the law-abiding instinct of the race," writes Geoffrey Layman, in the November Harper's Magazine.

"The safe-breaker," surprised in the midst of his nefarious operations by the solitary policeman on his beat, may in nine cases out of ten be expected to "go quietly." He is himself unarmed, and he knows that the policeman is unarmed, except for a "truncheon" or club, so carefully concealed that I, the average citizen, have never seen one in the hands or anywhere about the person of a policeman, although I know that it is there. There is a recognized etiquette in these matters.

If the safe-breaker or burglar can finish his job and get away unseen, the trick is his; but if he is so clumsy as to allow the policeman to come upon him unawares, he murmurs "It's a fair cop, go'n'ner," and submits. No English policeman, unless he is on plain clothes duty, or on some very rare occasion when there is strong probability that he will be met, almost certainly by aliens with violent and murderous resistance, is ever armed with any weapon more lethal than a truncheon, and it is very rarely, and usually only in street rows, that he has occasion to use even that. He has no need for anything more.

Canadian Is World's Champion

Montreal Youth Defeats Eight Nations in Oratorical Contest

Roche Pinard, of Montreal, representing the student orators of Canada, won the highest international honors in competition with eight others before members of the diplomatic corps and an audience of about 8,000 in Constitutional Hall at Washington. Herbert Shaumman, of Germany, was second, and Roberto Ortiz Griz, Mexico, third.

Pinard took as the subject of his oration "Canada among the nations," and his address and the manner of its delivery in the French tongue was adjudged the best among those made by the youths of England, the United States, France, Germany, Denmark, Mexico, Cuba and Peru.

Worms, by the irritation they cause in the stomach and intestines, deprive infants of the nourishment that they should derive from food, and mal-nutrition is the result. Miller's Worm Powders destroy worms and correct the morbid conditions in the stomach and bowels that are favorable to worms, so that the full nutrition of the child is assured and development in every way encouraged.

Eliminates Climbing

The highest and fastest lift in Europe is claimed for the Westminster Cathedral. In 32 seconds one is carried to a height of 185 feet. Before the lift was installed approximately 11,000 people climbed to the top annually.

HEADACHE RELIEVED QUICKLY

This Purely Vegetable Pill quickly corrects the digestive disturbances, removes the intestinal poisons, and quick headache quickly disappears. Your whole system enjoys a tonic effect, constipation vanishes, and you feel a renewed vigor. Avoid bromides and dope, they are depressing and harmful. All Druggists 25c and 75c red pkgs.

Holland Builds Largest Locks

Third Longer and Half as Wide Again As Panama Canal Locks

The most important of the numerous canals in Holland is that which since 1876 has connected Amsterdam, Holland's second seaport, with the ocean. With the gradual increase in the size of the ocean-going vessels, says the Netherlands News Bureau, this canal had to be widened and deepened until at present it belongs according to its dimensions, to the same class of large, internationally known artificial waterways as the Panama and Suez Canals. The North Sea canal has only one set of locks. These separate the turbulent waters of the North Sea from the calm, unruffled surface of the waterway and the many neighboring smaller canals and ditches. The locks are located at the coast near the town of IJmuiden, one of the important fishing centers of Holland.

As the canal has grown, so have the locks. Those in use at the present time admit ships of about 20,000 registered tons to enter the canal and thus reach Amsterdam. The ever increasing tonnage, especially of the modern liners, made imperative the construction of new locks which would be able to accommodate ocean vessels of any size. The locks have been under construction for a number of years and are expected to be ready early in September.

They will be the largest locks in the world; in length they exceed the locks of the Panama Canal by one-third, in width by one half. The largest ships afloat, the Leviathan and the Maestri, will be able to pass these locks without any difficulty. The preliminary depth of thirty-eight feet will give to the canal a profile with an area of about 14,000 square feet. This is more than the Suez Canal and a little less than the Panama Canal.

The gates weigh nearly 1,200 tons each. They are opened by rolling them back into recesses; exactly their size in the north wall. As no dry dock is available in the neighborhood which could accommodate the gates in case of necessary repairs the recesses had to be fixed up as dry docks. There are two gates in the western end of the lock chamber, one of which can be used as a reserve lock to replace either of the other two. The lock chamber can be filled in less than seven minutes. When the tide is very high it will take a little longer. The whole lock is operated electrically.

Test Was Successful

New German Device Drives Car By Liquid Gas

A new type of automobile, with liquid gas as the propelling agent, has been successfully tested at Essen, Germany, by Max Valler, the inventor.

The car was set in motion by the force of the loud sputtering escaping gas from three steel tubes attached to the rear of the driver's seat. Speed and halting the car was controlled by opening and closing the escape valves.

The car reached a top speed of about 37 miles an hour, but the inventor said that with perfection of the method, he expects vehicles to surpass all speed records, and predicted that the method would revolutionize the motive power for airplanes.

Worms cause fretfulness and rob the infant of sleep, the great nourisher. Mother Graver's Worm Exterminator will clear the stomach and intestines and restore healthfulness.

Canada's Grain Grading System

Is Regarded By Wheat Buying Countries To Be Best in the World

More than 90 per cent. of the wheat crop of Canada this year comes within the statutory grades. Leading agriculturists agree that its protein content averages 14 per cent., though there is some that runs as high as 19 per cent. While not wholly perfect Canada's grain grading system is regarded by the principal wheat buying countries to be the best in the world, according to the Dean of the Faculty of Agriculture, of the University of Saskatchewan, Saskatoon, who was a member of the commission which toured Canada taking evidence regarding the marketing and handling of the wheat produced in the Dominion.

Will Ship Coal Samples

Carload samples of coal from various British Columbia mines will shortly be forwarded to Ottawa, where arrangements have been made by the Department of Mines to test and tabulate the qualities of each coal for the purpose of designating the uses to which each coal is best suited.

Little Helps For This Week

"For the Lord God will help me."—Isaiah 1: 7.

Be not faithful, that is all; Go right on, and close behind these shoulders follow still, and find thee. Help, sure help!

—Arthur Hugh Clough.

What I can do with my single arm may be mean enough; but that is not the question. The thing to consider is, what can I do with God to help me? And the difference of the one and the other is the difference between a man trying to push a train of cars up grade by his single puny strength, and the same man on a locomotive with the steam up, moving the whole mass by a turn of the wrist.

—Robert Collier.

There are more than 3,500,000 dogs in France.

A greyhound can travel a short distance at a speed of 35 miles an hour.

THEY SAY Cow Clipping Pays!

A CERTAIN farmer wanted the facts about clipping cows so he wrote us for names of those owning clipping machines. He wrote them. Now he himself is so pleased with the Stewart clipping machine he sent us the letters which made up this advertisement. Here are some of them:

"I think this machine is a sound investment, paying for itself—yes, ten times its price in one clipping. Why? Because it eliminates the nuisance and naturally it takes less feed to keep cattle in good condition." Bowmannville.

"It is the easiest way to keep cows clean. With the old hair off the lice do not bother. A farmer cannot afford to keep cows and not clip them, it is my experience." Tavistock.

"It certainly reduces bacteria. It is a good investment to have the machine because it keeps down all the dirt and the milk keeps a lot better." Aylmer.

"We have clipped our cows now for the last ten or twelve years. It sure does away with the lice and when you get rid of the lice the cows milk a lot better. It not only keeps the manure from clinging to their hams, but when the udder is clipped dirt don't stick to it and get in the milk. The cows look a lot better to sell."

HOW TO CLIP COWS

Manner, the principal source of bacteria, cannot collect and at milking time rub off into the pail if hair on udder, underline, flanks and tail is kept clipped short all winter. A lice seem to congregate along the line, which explains why some farmers clip a six inch width from tail to ears.

Farmers who have warm stables and drinking water inside, usually clip their cows all over in the fall.

Buy a clipping machine and make more money from your cows—with less work.

Stewart No. 1 Clipping Machine is easy to use and anyone can clip with it. Strong, sturdy, easy-running and will last for years. At your dealer, \$15.00. Satisfaction or money refunded.

Acid Stomach

Excess acid is the common cause of indigestion. It results in pain and sourness about two hours after eating. The quick corrective is an alkali which neutralizes acid. The best corrective is Phillips' Milk of Magnesia. It has remained standard with physicians in the 50 years since its invention.

One spoonful of Phillips' Milk of Magnesia neutralizes instantly many

times its volume in acid. It is harmless and tasteless and its action is quick. You will never rely on crude remedies, never have to suffer, when you learn how quickly how pleasantly this premier method acts. Please let it show you—now.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any druggist.

Yarn Bargains

BARGAINS IN ALL WOOL YARNS AND JUST AT THE TIME OF THE YEAR YOU NEED THEM TOO.

J. C. McFarland Co.

Main Street

Mr. T. M. Moon left Monday night for Vancouver.

Irma Ladies Aid met at the home of Mrs. Locke, Thursday afternoon.

Mrs. W. H. Prior left Sunday night to visit with her daughter who is living on Vancouver Island.

Mrs. D. H. McMahon, of Edmonton spent the week end with her sister Mrs. Mack McMillan.

Mr. N. D. McMillan, of Bremner, spent the holiday with his brother Mack, north east of Irma.

Mr. J. R. Clark, who lives north of Hardisty is reported to be suffering with a serious attack of pneumonia in the Hardisty hospital.

Mrs. Kerns of Kinsella spent the week end with her husband who was assisting Rev. Woods with the services in the United Church.

Mrs. J. H. Archibald and her daughter Miss Irene, returned Wednesday after spending a few days in Edmonton.

Mr. B. Murphy who has been visiting with his mother Mrs. A. K. McLeod shipped a car of stock to his home at Courtney, B. C., Thursday.

Mrs. R. D. Smallwood returned to Irma Saturday after undergoing an operation at the Royal Alexander hospital at Edmonton. Mrs. Smallwood is doing nicely but is not able to be around yet.

Mr. James Headley returned last Friday night after visiting with his mother who passed away at her home near London, Ontario, on Sunday, October 27th. Mr. Headley's father accompanied him to Irma where he will probably spend the winter.

Mr. C. A. Riley returned Tuesday after attending the funeral of Mr. T. W. Oshel who passed away at his home at Oletha, Kansas, on November 8th. The late Mr. Oshel, who was Mrs. Riley's father was well known in the Irma district having spent the summers with his daughter for some years. He had only returned home a short time before his death and was not feeling well when he left Irma.

Monday night when returning from Irma, Mr. F. C. Weise and Earl Tomlinson met a coyote in Askins Coulee east of Irma. The coyote evidently thought it could outrun the car but when Slim stepped on the gas he was not long overtaking it when it dropped on the road evidently from heart failure. The car was stopped and when the coyote was picked up it turned out to be one of the biggest that has been caught for some time. There was no marks on it to show where it had been hit.

NOTICE TO HUNTERS

HON. J. A. ROBB, FINANCE MINISTER, DIES UNEXPECTEDLY

Just when it was believed Hon. J. A. Robb, Canada's veteran minister of finance had triumphed over death from pneumonia, death came from an unexpected quarter. Mr. Robb died here Monday afternoon following a stroke of apoplexy. The seizure was about noon and the minister succumbed four hours later.

KINSELLA

Mr. McCully held a sale of household effects at Jarow on Saturday, November 9th. Fine weather prevailed and everything offered brought good prices.

Knut Overby and J. J. Overbo motored to Edmonton on Wednesday last week on business, returning home on Saturday.

Charlotto E. Barber, entertainer assisted by local talent, will appear at the United Church on Tuesday, November 26th. The program will start at 8 o'clock. Admission: Adults 50c, children 25c.

The Women's Institute Social Club is holding a Whist Drive in Lees hall on November 19th.

On Friday last the W. I. gave a very enjoyable party for the little tots. About forty children were present, and the evening was spent by playing games, etc. A sumptuous supper was served at the close.

World Cruising Damsels Wear Great Variety of Costumes

People to whom a world cruise or any other long winter voyage is an experience yet to be enjoyed may wonder what those more fortunate folk do to pass the time while they are sailing the Seven Seas. It may interest the stay-at-homes to know that the time spent on these pleasure jaunts rarely hangs heavy, for all sorts of diversions are planned for the entertainment of the globe-trotters. The bridge fiend has his bridge parties, the amateur photographer his camera expeditions and the dancer his dancing, but one of the most fascinating of all, to the fair sex, at least, is that of purchasing and trying on costumes typical of the various far-off lands visited. Pictured above,

for instance, is a bevy of beauties photographed aboard the world-cruising "Canadian Pacific liner, 'Empress of Australia' en route from China to Japan during her 1928-29 annual round the world cruise. They are blossoming out in dazzling pejsama suits which they purchased in the Orient. This collection of pseudo-Chinese maidens must have caused many a masculine heart to miss a beat or two! The other group of ladies are wearing mandarin coats acquired during an earlier trip around the world. At practically every port of importance it is possible for passengers who are so inclined to purchase some little memento, be it a shawl, a miniature Buddha, a

ring, a native doll, a walking stick or other souvenir of their travels. During a world cruise of the "Empress of Scotland" several years ago a cruise member from Denver, Col., purchased a toy elephant for each member of the Denver Kiwanis Club of which he was a member and posed with his collection of pachyderms for the vessel's corps of amateur photographers. Spanish shawls, parasols and many other articles complete the list of possibilities for globe-trotters with a penchant for collecting. The "Empress of Australia" will sail again on a globe-girdling voyage, leaving New York December 2, 1929, for a cruise of 137 days.

Ste. Petronille

Jack Strathdee, the very able winter sports director at the Chateaux Frontenac, his friends will be pleased to learn, is losing weight. Jack runs a summer camp at French River in the fishing season and he took his present job for the reason that he wanted to rest and draw a salary at the same time. When he has time to reflect, and this is seldom, he longs for the easy job of operating a camp and guides. He finds no rest, for during every daylight hour there is something doing on the ski-ski, on the rink, on the slide, and a hundred people to provide with sports equipment and direction. But he keeps fit as they all do. The air is bracing and invigorating and there is lots of fun.

In the group above one sees the director assisting their Excellencies Lord and Lady Willington who have just come down the slide for the third time. The other group perhaps explains why he finds so much pleasure in his work and why he has taken up skiing again. There is also a picture of his rink which shows how the slide in the background drops down steeply from the citadel. But take the 'other picture. This will show you Jack Strathdee's most recent discovery. Beyond the dogs and the terrace is a field of free ice. Beyond that the lake of Orleans is a shadowy form. Now to the left of the island, just above the jump standing great slabs and chunks of crystal and opaque ice huddled themselves in a mass,

cast reefs of glistening pinnacles to the sky in one glorious chaos and screeching, groaningly settled down. Then the mayor of St. Gregoire and the mayor of Ste-Petronille set out, each armed with a small spruce cutting. They met somewhere in the centre of the river, solemnly shook hands, and the ice bridge was declared open. It was after that, that the sports director Petronille with its ski slopes and toboggan and snowshoe prospects, and also the "Catalogue". The "Catalogue" has a rubric-stone fire place of catalogue about the floor and as window drapes, the oddest old furniture and quaint bed-rooms and, above all a splendid cuisine. It is less than one hour from Quebec and is hailed as a great discovery.
